TO THE TRADE

"Optimism in the present and confidence in the future." That seems to us a good motto to go by. Business this past year has been better than many of us perhaps looked for at the beginning—1950 will be as good or better. Cooperation locally and nationally will help as it always has.

We trust this catalog will be helpful and hope we may continue in receipt of your good will. If there are some items in which you are interested not listed here we will be glad to quote you specially.

The prices will be maintained as far as possible but changes up or down may be made by manufacturers and growers which are unavoidable.

While Fall bulb items are not listed herein—we solicit your inquiries and orders which can be placed subject to your approval of price to be advised when fixed. Early ordering is in your favor from every angle—price, first consideration in case of shortage, etc.

Sidney H. Skidelsky

President.

TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest, thereafter.

Shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but no claims will be entertained at a later date. As to all items other than bulbs, claims must be made within five days after receipt or they cannot be recognized.

All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

In the interest of time saving, we ask that you authorize us, when necessary, to substitute with the nearest similar size or variety.

Note: Purchaser pays transportation on grass and vegetable seeds. We mail all flower seeds post-free to any point in the United States, at prices listed in this catalogue.

New accounts desiring credit, please give three trade references.

Discounts for cash with order. Flower seed orders up to \$25.00, 5%. Over 25.00, 8%. Vegetable Seeds, 2%. On all other items 3% is allowed, except on cyclamen, grass seed and special quotations, which are net. No C.O.D.'s.

Disclaimer. While we, S. S. Skidelsky & Co., Inc., exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once and the money will be refunded. Our liability, in all instances, is limited to the purchase price of the seeds, bulbs, roots or plants.

FLOWER SEEDS 5% UP TO \$25.00 - 8% OVER \$25.00, VEGETABLE SEEDS 2%. CYCLAMEN AND GRASS SEEDS ARE NET. NEW ACCOUNTS DESIRING CREDIT, PLEASE GIVE 3 TRADE REFERENCES.

CULTURAL DIRECTIONS ON HARDY LILIES

Plant bulbs immediately on arrival in a well drained soil, giving them plenty of opportunity for root action. The containers should then be set on a raised platform in a cool, semi-dark place, affording perfect drainage. When flower buds appear, the plants will then readily submit to forcing. They may also be planted out of doors for flowering in June and early July and later.

FANCY LEAVED CALADIUMS

Brighter Colors. Bigger Leaves. More Leaves.

Caladiums are easily grown but should not be put in a Carnation temperature. Start the bulbs in flats, turning them upside down, since this is a crown-rooting bulb and the roots come out around the top (center) eye. This direct contact with the growing medium produces roots more quickly than the opposite method. Use a mixture of one part leaf-mold, one part good garden loam, and one part peat moss or other coarse neutral material, adding a small amount of coarse charcoal or other rubble for drainage. Press the bulb halfway into the soil and place the flats under a bench. The flats can also be placed on top of the flows, but if this is done they should be shaded. The temperature should be 80 to 85 degrees or higher, as the higher the temperature, the better starting results you will have. Be careful that the flats do not dry out if placed either on the flows or returns. Water sparingly until the bulbs begin to sprout and have roots 4 to 6 inches long. When the sprouts begin to show place the bulbs in 5 or 6 inch pots using good rich leaf-mold. Water copiously when in full growth and use weak liquid manure once weekly if possible.
